

**NOTICE OF INTENT
FOR PROJECTS COVERED UNDER
GENERAL CONSTRUCTION PERMIT FOR WASTEWATER
COLLECTION SYSTEMS**

SECTION A - GENERAL INFORMATION

Date: _____

1. Applicant Name _____
2. Construction Project Name _____
3. Location _____ County _____
4. Project Description _____

5. Estimated Start Date _____ Estimated Completion Date _____
6. Total additional flow to the receiving treatment facility _____ GPD
7. Name of the treatment facility receiving the flow _____
8. NPDES/ND Permit Number of the receiving treatment facility _____

SECTION B – ENGINEER’S CERTIFICATION

I hereby certify that all construction and associated activity pertaining to this project shall be accomplished pursuant to and in keeping with the terms and conditions of coverage under the General Construction Permit for Wastewater Collection Systems (Permit Number SCG580000). I also certify that a responsible person will be assigned to the project for day-to-day control.

Certifying Engineer: _____ (Signature): _____

SECTION C - SUBMITTAL REQUIREMENTS

1. Approval letter from the public entities that own and operate downstream facilities (i.e. sewers and treatment facilities), if different from the public entity specified as the applicant in Section A of this NOI.
2. Ocean and Coastal Resource Management (OCRM) certification for projects in Berkeley, Dorchester, Charleston, Colleton, Beaufort, Jasper, Horry, and Georgetown counties.

SECTION D – OTHER PERMITS

A DHEC navigable waters permit for crossings of navigable waterbodies in the State, unless the project meets the exemptions allowed by South Carolina Regulation 19-450.3, may be required for this project in addition to DHEC’s approval of this NOI before the applicant may initiate construction:

This form should be submitted electronically to NOI_WastewaterGCP@dhec.sc.gov, or mailed to SC DHEC’s Bureau of Water, Attention: Construction Permitting Section, 2600 Bull Street, Columbia, SC 29201.

**Instructions for the Notice of Intent (NOI)
for projects covered under the
General Construction Permit for Wastewater Collection Systems**

- Purpose:** Once an entity has been approved for coverage under the General Construction Permit for Wastewater Collection Systems, Permit Number SCG580000, this NOI form must be completed and submitted to DHEC's Bureau of Water for approval prior to initiating construction of the proposed wastewater collection system eligible for coverage under the general construction permit.
- Section A**
1. The name of the applicant submitting the NOI.
 2. The name of the proposed project.
 3. Specify the project location (e.g. street names) and county in which the project is located.
 4. Give a detailed project description (length and type of each size wastewater line, number of manholes, number and design capacity of pump station(s), and what the project will be serving).
 5. List the expected project start date and expected completion date.
 6. List the design flow, in gallons per day, of the project, based on Regulation 61-67, Appendix A. This flow would be the additional flow that is being discharged into the system.
 7. List the name of the wastewater treatment facility receiving the flow from this project and any downstream interceptors owned and operated by another entity.
 8. List the NPDES or ND number of the wastewater treatment facility.
- Section B** The Engineer's Certification Statement must be signed by the professional engineer on staff or on retainer responsible for the design and inspection of this construction project. The certifying engineer must be one of the engineers who signed and sealed the Application for Coverage under the General Construction Permit for Wastewater Collection Systems.
- Section C** The following information, where applicable, must be included with the NOI.
1. An approval letter is required from the public entity responsible for treatment if different from the applicant. This must be included with the NOI. Approval letter must also be obtained from any downstream public entity receiving flow from the project if different from the applicant and public entity responsible for treatment.
 2. OCRM certification must be obtained by the public entity prior to initiating the construction of projects in Berkeley, Dorchester, Charleston, Colleton, Beaufort, Jasper, Horry, and Georgetown counties.
- Section D** This is a notice to the applicant that a separate DHEC navigable waters permit for crossings of navigable water bodies in the State may be required before initiating construction of the project.
- Office Mechanics:** This form and the associated letters will be kept in DHEC's Bureau of Water Central Office files in accordance with the Retention Schedule. Submit the required information electronically to NOI_WastewaterGCP@dhec.sc.gov, or mail to SC DHEC's Bureau of Water, Construction Permitting Section, 2600 Bull Street, Columbia, SC 29201.
